Industrial visit Report

Program Name: Industrial visit

Program Date: 12th April 2023, Time: 08:30 a.m.

Venue: Radbound Wrappers Pvt. Ltd. Plot no. 09, Ambad MIDC, Nashik,
Maharashtra - 422010

Principal: Dr. S.B Nahire,

Faculty Members Present: Asst. Prof. Ranjana Mahajan
Mr. Tousif Mirza
Asst. Prof. Bharti Warekar
Asst. Prof. Rushikesh Zute
Asst. Prof. Saima Khan
Asst. Prof. Sadiya Ansari

An industrial visit to Radbound Wrappers was organized for the students of Commerce Department, National Senior College, Nashik on 12th April 2023. Fifty Five students of Commerce Department and All faculty members visited to Radbound Wrappers Pvt. Ltd. to interact with the resource person to understand the process of manufacturing different types of Cardboards and Cardboard Boxes In the morning at 08:30 am to 01:30 pm students visited and interacted with the resource person who has given the information about How Cardboards and Cardboard Boxes are Manufactured in Industry.

The resource person also given the brief introduction about the industry, the source of Raw Material and the various types of sheets in the raw material. Students got an brief demonstration about how these raw sheets are get attached to the machines for the further manufacturing process. The resource person also showed the demonstration on how the different sheets are pasted together to make an strong cardboard and boxes of various types and qualities. The students also observed the printing area of the industry and get an idea about how the different types of materials are printed for the different companies as per the different requirement.

The group students also asked the various questions to the resource person and the owner of the company about the process of manufacturing, amount of capital which is required to start the industry, marketing areas, strengths and weakness of the industry, number of clients and number of employees are connected with the industry, wages that are provided by the industry and the logistics and supply department of the industry.

The visit was organized by Department of Commerce. The students was participated in the visit and interacted very well.

3.WATER MILL

GEOGRAPHICAL INFORMATION OF AURANGABAD

Introduction: Aurangabad is a city in the Aurangabad district of Maharashtra state in India. The city is a tourism hub, surrounded by many historical monuments, including the Ajanta Caves and Ellora Caves, which are UNESCO World Heritage Sites, as well as Bibi Ka Maqbara and Panchakki. The administrative headquarters of the Aurangabad Division or Marathwada region, Aurangabad is titled "The City of Gates" and the strong presence of these can be felt as one drives through the city. The city was founded in 1610 by Malik Amber. Aurangabad is the *Tourism Capital of Maharashtra*. Aurangabad is the fifth largest city in Maharashtra. The co-ordinates for Aurangabad are N 19° 53' 47" – E 75° 23' 54". The city is surrounded by hills on all directions.

History of Aurangabad, Maharashtra:

Zeb-un-Nisa's palace, Aurangabad 1880s.

Khadki was the original name of the village which was made a capital city by Malik Ambar, the Prime Minister of Murtaza Nizam, Shah of Ahmadnagar. Within a decade, Khadki grew into a populous and imposing city. Malik Ambar died in 1626.^[7] He was succeeded by his son Fateh Khan, who changed the name of Khadki to Fatehnagar. With the capture of Daulatabad by the imperial troops in 1633, the Nizam Shahi dominions, including Fatehnagar, came under the possession of the Moghals.

In 1653 when Mughal prince Aurangzeb was appointed the viceroy of the Deccan for the second time, he made Fatehnagar his capital and renamed it Aurangabad. Aurangabad is sometimes referred to as Khujista Bunyad by the Chroniclers of Aurangzeb's reign.

In 1724, Asif Jah, a Turkic general and Nizam al-Mulk of the Mughals in the Deccan region, decided to secede from the crumbling Mughal Empire, with the intention of founding his own dynasty in the Deccan and decided to make Aurangabad his capital. His son and successor, Nizam Ali Khan Asaf Jah II transferred his capital from Aurangabad to Hyderabad in 1763. In 1795, the city came under the Maratha rule, following the Maratha victory in the Battle of Kharda, along with an indemnity of 30 million rupees paid by Ali Khan Asaf Jah II, Nizam of Hyderabad to the Marathas. However, Maratha rule lasted only eight years before the city came under the rule of the Nizam of Hyderabad, under the protection of the British East India Company, following the British victory in the Second Anglo-Maratha War. During the period of the British Raj, the city was known as *Aurungábád*. Aurangabad was a part of the Princely State of Hyderabad during the British Raj, until its annexation into the Indian Union after the Indian Independence in 1947, and thereafter a part of Hyderabad state of India until 1956. In 1956 it became a part of newly formed bilingual Bombay state and in 1960 it became a part of Maharashtra state.

Geography and climate:

Climate data for Aurangabad

Month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Year

Source: India Meteorological Department (1952-2000)

Climate Classification: Aurangabad features a semiarid climate under the Köppen climate classification.

Temperature:

Annual mean temperatures in Aurangabad range from 17 to 33 °C, with the most comfortable time to visit in the winter – October to February. The highest maximum temperature ever recorded was 46 °C (114 °F) on 25 May 1905. The lowest recorded temperature was 2 °C (36 °F) on 2 February 1911. In the cold season, the district is sometimes affected by cold waves in association with the eastward passage of western disturbances across north India, when the minimum temperature may drop down to about 2 °C to 4 °C (35.6 °F to 39.2 °F).

Rainfall: Most of the rainfall occurs in the monsoon season from June to September. Thunderstorms occur between November to April. Average annual rainfall is 710 mm. The city is often cloudy during the monsoon season and the cloud cover may remain together for days. The daily maximum temperature in the city often drops to around 22 °C due to the cloud cover and heavy rains.

Geology:

Ahilyabai Holkar Chauk, Station Road, Aurangabad

The entire area is covered by the Deccan Traps lava flows of Upper Cretaceous to Lower Eocene age. The lava flows are overlain by thin alluvial deposits along the Kham and Sukhana river. The basaltic lava flows belonging to the Deccan Trap is the only major geological formation occurring in Aurangabad. The lava flows are horizontal and each flow has two distinct units. The upper layers consist of vesicular and amygdaloidal zeolitic basalt while the bottom layer consists of massive basalt. The lava flows are individually different in their ability to receive as well as hold water in storage and to transmit it. The difference in the productivity of groundwater in various flows arises as a result of their inherent physical properties such as porosity and permeability. The groundwater occurs under water table conditions and is mainly controlled by the extent of its secondary porosity i.e. thickness of weathered rocks and spacing of joints and fractures. The highly weathered vesicular trap and underlying weathered jointed and fractured massive trap constitutes the main water yielding zones. The soil is mostly formed from igneous rocks and are black, medium black, shallow and calcareous types having different depths and profiles.

Demographics:

Population growth:

2011 census has put the city of Aurangabad in million plus metro club of India. The city municipal area had total population of 1,171,260 while population including metropolitan area had a population 1,413,711. It is the 5th most populous city in Maharashtra after Mumbai, Pune, Nagpur and Nashik. 52.5% of Aurangabad's population is in the 15–59 years age category. Around 11% of the population is under 6 years of age. The Marathi and Hyderabad Muslim communities are the two largest ethnic groups in the city.

Hinduism is the majority religion in Aurangabad city at 51.07% with 600,183 followers. Islam is the second most popular religion in the city with 361,817 people (30.79%) following it. Buddhism is followed by 178,307 people (15.17%), Christianity is followed by 10,060 people (0.86%), Jainism by 19,073 (1.62%), Sikhism by 3,427 (0.29%). Around 0.04% stated 'other Religion', and about 0.15% stated 'No Particular Religion'.

Economy: As one of the largest cities in India, and as a result of its many colleges and universities, Aurangabad is emerging as a prominent location for IT and manufacturing.

There is evidence to believe that Aurangabad was developed as a trading hub four centuries ago. Aurangabad is one of the fastest developing cities in Asia. It tops the chart among the developing cities. It lies on a major trade route that used to connect north-west India's sea and land ports to the Deccan region. In 2010, Aurangabad was in news for placing single largest order for Mercedes Benz cars in a single transaction in India — 150 Mercedes Benz cars worth Rs 65 crore. Without a local Mercedes-Benz showroom and encountering an indifferent Mercedes-Benz dealer in the nearest city, a group of successful citizens pooled their orders and negotiated a record agreement with the firm. Soon after that, bulk purchase order of 101 BMW cars was also placed.

Industry:

Himroo Shawl

Electronics giant Videocon has its manufacturing facility in Aurangabad where it manufactures a range of home appliances. The city was a major silk and cotton textile production centre. A fine blend of silk with locally grown cotton was developed as Himroo textile. Paithani silk saris are also made in Aurangabad. With the opening of the Hyderabad-Godavari Valley Railways in the year 1900 several ginning factories were started. After 1960, Maharashtra Industrial Development Corporation (MIDC) began acquiring land and setting up industrial estates. Aurangabad is now classic example of efforts of state government towards balanced industrialisation of state.

Major Industrial areas of Aurangabad are Chikhalthana MIDC, Shendra MIDC and Waluj MIDC. A new industrial belt namely Shendra - Bidkin Industrial Park is being developed under DMIC. The Maharashtra Centre For Entrepreneurship Development's main office is in Aurangabad.

Prozone mall Aurangabad

Modern Retail Industry has made its presence felt in the forms of Malls. Prozone Mall spread over 1 million square feet is the biggest in the region. The industry is a big employment generator. Prozone alone created direct employment opportunities for 4000 people.

Administration and politics: Local administration

Further information: Aurangabad Municipal Corporation

Kranti Chowk

Aurangabad Municipal Corporation (AMC) is the local civil body. It is divided into six zones. The Municipal Council was established in 1936, the Municipal Council area was about 54.5 km². It was elevated to the status of Municipal Corporation from 8 December 1982, and simultaneously including eighteen peripheral villages, making total area under its jurisdiction to 138.5 km² extended its limits.

The city is divided in 99 electoral wards called as *Prabhag*, and each ward is represented by a Corporator elected by the people from each ward. There are two Committees, General Body and Standing Committee headed by the Mayor and the Chairman respectively. AMC is responsible for providing basic amenities like drinking water, drainage facility, road, street lights, healthcare facilities, primary schools, etc. AMC collects its revenue from the urban taxes which are imposed on citizens. The administration is headed by the Municipal Commissioner; an I.A.S. Officer, assisted by the other officers of different departments.

State and central administration:

Aurangabad division is one of the six administrative divisions of Maharashtra state in India. Aurangabad divisions almost completely coincides with the Marathwada region of Maharashtra.

Aurangabad contributes one seat to the Lok Sabha – Aurangabad (Lok Sabha constituency). The seat is currently held by Mr. Chandrakant Khaire, MP of the Shiv Sena party. In latest constituency arrangements made by, Aurangabad will contribute one Loksabha seat, and three state assembly seats namely Aurangabad East, Aurangabad West and Aurangabad Central. The latest MLAs being – Aurangabad (East) – Atul Moreshwar Save(BJP), Aurangabad (Central) – Imtiyaz Jalceel (AIMIM) and Aurangabad (West) Sanjay Shirsat of Shiv-Sena.

Transport:

Air:

Aurangabad Airport

Aurangabad Airport (Chikkalthana Airport) is an airport serving the city and has connecting flights to Hyderabad, Delhi, Mumbai, Bangalore, Tirupati and Thiruvananthapuram. In 2008, flights were made available to the people travelling to the Hajj pilgrimage.^{[26][27]}

Rail:

Aurangabad railway station is the major railway station under Nanded railway division.

Education:

Dr. Babasaheb Ambedkar Marathwada University (BAMU) is located in Aurangabad city. Most of the colleges of the region are affiliated to it. The University has 101 Colleges affiliated in Aurangabad and similarly 99 Colleges in Beed, 53 & 55 Colleges affiliated in Jalna & Osmanabad.^[28] Aurangabad has schools run by the Aurangabad Municipal Corporation (AMC) and private schools owned and run by trusts and individuals. Government Polytechnic Aurangabad is one of the polytechnique institutions in marathwada region. Government College of Engineering, Aurangabad is an Autonomous engineering college in Maharashtra State of India. It was affiliated to the Dr. Babasaheb Ambedkar Marathwada University and was established in 1960. The construction of the college was started in 1957 and was completed in 1960. Marathwada Institute of Technology and Jawaharlal Nehru Engineering College are two other prominent engineering colleges in Aurangabad. Maulana Azad College of Arts and Science was founded in 1963 by Dr. Rafiq Zakaria, who formed a trust called Maulana Azad Education Society to manage the affairs. The College is affiliated to Dr. Babasaheb Ambedkar Marathwada University of Aurangabad. National Institute of Electronics & Information Technology Aurangabad (NIELIT Aurangabad) is located inside the Dr B.A.M. university campus. It is a central government engineering institute under the Ministry of Communication & Information Technology Government of India. It offers DEPM, B.TECH(Electronics Engineering), M.tech(Electronics Design Technology), P.hd and short term courses. Institute of Hotel Management, Aurangabad, is affiliated to University of Huddersfield. Students have internships in the Vivanta, Taj in Aurangabad which is a 5 star hotel^[29] Aurangabad is educational hub of Marathwada

Tourist attractions:

Main articles: Tourism in Marathwada and Tourist attractions in Aurangabad, Maharashtra

Aurangabad is a very historical city along with its surrounding towns and villages. It receives tourists and surveyors from all over the world.

Kailasa temple, Ellora

Bibi Ka Maqbara

Bhadkal Gate built by Murtuza Nizam Shah in the year 1612. Salim Ali Lake

- **Ellora and Ajanta Caves:** The world-famous Ellora and Ajanta Caves are situated at 29 km (18 mi) and 107 km (66 mi) respectively from Aurangabad city and come within the Aurangabad district. The Ellora Caves consist of 34 caves built between 5th and 10th century CE under the patronage of Rashtrakuta Dynasty. They represent the epitome of Indian rock cut architecture.^[31] The Ajanta Caves are also 30 rock cut caves around a gorge, built by the Satavahana, Vakataka and Chalukya dynasties between 2nd and 5th century CE.^[32] They contain the rarest and finest surviving examples of ancient Indian art, especially painting.^[33] Both the Ellora and Ajanta Caves are UNESCO World Heritage Sites.
- **Bibi Ka Maqbara:** The Aurangabad city is known for the Bibi Ka Maqbara situated about 3 km (2 mi) from the city which is the burial mausoleum of Emperor Aurangzeb's wife, Dilras Banu Begum also known as Rabia-ud-Daurani. It is an imitation of the Taj Mahal at Agra and due to its similar design, it is popularly known as the "Taj of the Deccan".^[34]

- **Daulatabad Fort:** The Daulatabad Fort (aka Devgiri Fort) located about 15 km (9 mi) north-west of Aurangabad was one of the most powerful forts during the medieval period. Built in the 12th century CE by the Yadava Dynasty, it's a citadel that was never conquered by any military force. The British called it the "best fort of India", due to its extraordinary military strength. Built on a 200 metre high conical hill, the fort was defended by moats and trenches running around the hill at its foot besides the most complex and intricate defence system. The fort has two fixed massive canons which can be pivoted. The fortifications comprise three encircling walls with bastions.^[35]
- **Panchakki:** The 17th-century water mill (Panchakki) situated at a distance of 1 km from the city is known for its underground water channel, which traverses more than 8 km. to its source away in the mountains. The channel culminates into an artificial waterfall that powers the mill.
- **Gateways:** The city is also famous for the 52 gateways built during Mughal era which gives it the name of "City of Gates".^[36]
- **Aurangabad Caves:** These are situated at a distance of 5 km (3 mi), nestled amidst the hills are 12 Buddhist caves dating back to 3 A.D. Of particular interest are the Tantric influences evident in the iconography and architectural designs of the caves.
- **Grishneshwar Temple:** It is one of the 12 jyotirlinga shrines in India. The present temple was built by Ahilyabhai Holkar in 18th century CE. The structure is a unique example of Bhoomija architecture with a Maratha style influence.^[37]
- **Salim Ali Lake & Bird Sanctuary:** Popularly known as Salim Ali Talab is located in the northern part of the city near Delhi Darwaza, opposite Himayat Bagh. During the Mughal period it was known as Khiziri Talab. It has been renamed after the great ornithologist and naturalist Salim Ali. It also has a bird Sanctuary and a garden maintained by the Aurangabad Municipal Corporation.
- **Tomb of Aurangzeb:** The tomb of the last Mughal emperor Aurangzeb is located in the village of Khuldabad, 24 km (15 mi) to the north-west of Aurangabad in Aurangabad district^[38] It is located in the south-eastern corner of the complex of the dargah of Sheikh Zainuddin.^[38]
- **Kachner Jain Temple:** This is a 250 years old temple dedicated to Parshvanath. The idol here is called Chintamani Parshvanath.
- **Siddharth Garden & Zoo**^[39]
- **Prozone Mall**

1. DAULATABAD FORT

Daulatabad Fort

Daulatabad (19° 57' N; 75° 15' E) is located at a distance of 15 km northwest of Aurangabad, the district headquarters and midway to Ellora group of caves. Daulatabad or 'the abode of wealth' was the name given by Muhammad-bin-Tughluq when he made his capital here in A.D. 1327. The ancient name being 'Devagiri' or 'Deogiri' meaning 'Hill of Gods' under the Yadavas of Deogiri. The Yadavas were initially ruling under the Chalukyas of Kalyani over region of modern Dhulia and Nasik districts with their capital at Chandradityapura (modern Chandor, Nasik district). Bhillama V who was one of the powerful Yadava rulers led victorious campaigns against the Hoysalas, Paramaras and Chalukyas founded the city of Deogiri and shifted his capital here. Since then the succeeding Yadava rulers held their capital here. During the rule of Ramachandradeva, son of Krishna, Ala-ud-din Khilji invaded and captured Deogiri in A.D. 1296. However, Ramachandradeva was allowed to rule from here as a vassal. Later, Malik Kafur led two campaigns against Ramachandradeva and his son Shankardeva in A.D. 1306-07 and 1312 respectively; Shankardeva was killed during the latter campaign. Harapaladeva was placed on the throne by Malik Kafur who later ascertained his independence. This led to another successful campaign against Deogiri by Qutb-ud-din Mubarak Shah Khilji and the fort was annexed to the Delhi Sultanate. Muhammad-bin-Tughluq succeeded the Khiljis at Delhi and he renamed Deogiri as Daulatabad and seeing its impregnable fort, shifted the capital from Delhi in A.D. 1328. This led to serious repercussions and he had to again transfer the capital back to Delhi. The region and the fort passed on into the hands of Bahamani rulers under Hasan Gangu in A.D. 1347 and Nizam Shahis of Ahmednagar in A.D. 1499. Daulatabad became the capital of Nizam Shah dynasty in 1607 A.D. Deccan witnessed turbulent periods due to the frequent invasions and infights between the local ruling families during this period. The Mughals led several campaigns during the rule of Akbar and Shah Jahan and only during the latter's period the area was fully captured in 1633 A.D. after a long siege of four months. Thus the Mughals seized power and Aurangzeb was placed as the Viceroy of Deccan who led his campaigns to Bijapur

and Golconda from Daulatabad. The rising power of Marathas troubled the Mughals and for a brief period the region passed under the control of Marathas. Thus the Daulatabad fort passed several hands, captured and re-captured, by the Mughals, the Marathas, the Peshwas, and finally placed under the control of the Nizams of Hyderabad in 1724 A.D. which was under their control till independence.

The Daulatabad fort was one of the most powerful forts during the medieval period. Built on a 200 metre high conical hill, the fort was defended by moat and glacis running around the hill at its foot besides the most complex and intricate defense system. The fortifications comprise three encircling walls with bastions.

The entrance through the outer wall is by a strong hornwork consisting of a succession of gateways and courts. It has very thick and lofty walls convoluted on the outer faces and is defended by large bastions both without and within the courts. A barbican of later date, the entrance to which has been broken away, stands in front of this hornwork. One the right of the entrance gateway is an enormous bastion. The face of the gateway above the door has been pierced with three large openings for artillery. The entrance from the barbican to the first court is through a lofty vaulted passage with a turn midway and two-leaved door at the entrance, a large recess for the guard on right and stairway to the parapet wall over the gate on the left. The outer door, studded and spiked against elephant attack, is still in position. It is a formidable barrier, strengthened behind by heavy battens spaced at short intervals, and secured when closed by a square timber bar, drawn out from a long socket in one jamb, passed behind the door and fitted into a socket in the other jamb. The iron spikers are arranged in horizontal rows up the face of the door.

The next gateway is defended by strong towers and an embattled parapet. There is only one two-leaved door here but it is of the usual heavy constructions and armed with iron spikers. Within the doorway are two guard rooms, each of two vaulted bays. In the next court, facing the second gateway, is a large conical tower which has lost its upper part and from this tower, about midway in its height, projects a covered balcony supported on sculptured corbels. To reach the following gate in the hornwork one must pass diagonally through the court exposed to attack from all sides. This gateway, closed only by a single two leaved-door, is much narrower than those already passed.

The second curtain has a simpler entrance with still narrower gateway and the entrance is defended from

within by a guardroom on either side of the passage at its issue. This fortress enclosed an area occupied by the ruins of the palaces of Tughluq and of later days. The outer part has also numerous ruined buildings – palaces, temples and mosques. Besides there exists a fine and conspicuous minaret, 30 metres high and 21 metres in circumference known as Chand Minar which was built by Sultan Ala-ud-din Bahmani (Sultan Ahmed Shah II) in 1447 A.D. The third wall is much further up the hill and the rise begins to grow steeper, the entrance here is complicated and difficult to negotiate, and is defended by a tower on either side. A flight of steps leads up to the first door, this door being carried, an assailant is faced by guards in a recess directly in front of him, and his further progress is obstructed by a door on the right, opening to a passage through the wall with a flight of steps up, under attack from guards posted in a large recess in the rear, another recess on the right-hand side of the passage and a third directly facing him. A third door opening to a flight of steps on the left and under attack from the rear must finally be carried before he has arrived inside the wall.

Ascending from this level and passing by the ruins of the Chini Mahal, a palace decorated with encaustic tiles, one reaches a platform at the foot of the citadel. By the side of Chini Mahal, is placed a massive cannon manufactured during the period of Aurangzeb popularly known as 'Menda Top'. The entrance to the citadel is defended by a wide and deep wet moat leaving dams across it and a submerged causeway for the bridge of unusual design. It descends rapidly by a flight of steps down from the counter scarp and rises again to the level of the gallery on the other side. The gallery passes round three sides of a tall bastion and an assailant rushing through it would be under attack from the battlements of the bastion and from those of a high wall and strong tower on the counter scarp of the moat, which are so built as to face in that direction. From the end of the gallery a few steps lead down to a small open court, on one side of which is the entrance doorway to the tunnel. The long ascending tunnel rises rapidly and tortuously by flights of steep steps. Openings of it at intervals are chambers for guards commanding the approach. At the head of the tunnel is an iron shutter which runs horizontally on small wheels, covering or uncovering the opening like a trap-door. A most ingenious and effective defense of this tunnel was the provision of a barrier of smoke. At a point about half-way through, where the tunnel passed near the vertical face of the rock a hole was cut through to secure draught for the fire in an iron brazier which installed in a small chamber opening into the tunnel when the fire was kindled the current of air from the hole would waft the smoke up the tunnel and render its passage impossible.

On issuing from the trap-door at the head of the tunnel one arrives at the foot of a very wide and long series of flight of steps, ascending to the baradari, a summer house, built for Shah Jahan on his visit to Daulatabad in 1636 A.D. From this level a further flight of steps leads up to the level summit of the citadel where lies a heavy canon of 18th century in its original mountings. The citadel possesses a plentiful supply of water from its own perennial springs.

2. BIBI KA MAQBARA

Bibi-Ka-Maqbara:

The Bibi-Ka-Maqbara (19°55' N; 75°15' E) is a beautiful mausoleum of *Rabia-ul-Daurani* alias Dilras Banu Begum, the wife of the Mughal *Emperor* Aurangzeb (1658-1707 A.D.). This mausoleum is believed to be constructed by Prince Azam Shah in memory of his mother between 1651 and 1661 A.D. An inscription found on the main entrance door mentions that this mausoleum was designed and erected by *Ata-ullah*, an architect and *Hanspat Rai*, an engineer respectively. The marble for this mausoleum was brought from mines near Jaipur. According to Tavernier, around three hundred carts laden with marbles, drawn by at least 12 oxen were seen by him during his journey from Surat to Golconda. The mausoleum draws its inspiration from the world famous *Taj Mahal* of Agra (constructed between 1631 and 1648 A.D.) and hence it is rightly known as the "*Taj of Deccan*". The mausoleum was intended to rival the *Taj Mahal*, but, the decline in architecture and proportions of the structure had resulted in a poor copy of the latter. Even this decline cannot stop one appreciating the setting of the tomb complex in a garden setting with the mountain ranges behind providing as a backdrop. A huge 'U' shaped gap in between the hills behind provides the perfect harmony in which the mausoleum is blended.

The mausoleum stands at the centre of a huge enclosure measuring approximately 458 m. N-S X 275 m. E-W. *Baradaris* or pillared pavilions are located at the centre of north, east and western part of the enclosure wall. The typical Mughal *Char-Bagh* pattern adorns the mausoleum thereby increasing its beauty and splendour through its symmetry and excellent garden layout. The high enclosure wall is crenellated with pointed arched recesses and bastions at regular intervals are provided to cut down the monotony. The recesses are divided by pilasters, crowned with small minarets.

The mausoleum is entered through a main entrance gate on its south, which has excellent foliage designs on brass plate on wood covering from the exterior. After passing through the entrance a small tank is provided and a low profile screen wall leads to the main structure. The screened pathway has a series of fountains at its centre, which adds to further the serene atmosphere.

The mausoleum is built on a high square platform with four minarets at its corners, which is approached by a flight of steps from the three sides. A mosque is found to the west of the main structure, which was a later addition caused, by Nizam of Hyderabad resulting closure of the entrance. The mausoleum is

encased with marble up to the dado level. Above the dado level, it is constructed of basaltic trap up to the base of dome; the latter is again built of marble. A fine plaster covers the basaltic trap and given a fine polished finish and adorned with fine stucco decorations. The mortal remain of Rabia-ul-Daurani is placed below the ground level surrounded by an octagonal marble screen with exquisite designs, which can be approached by a descending flight of steps. The roof of this chamber that corresponds to the ground level of the mausoleum is pierced by an octagonal opening and given a low barricaded marble screen. Thus the tomb can also be viewed from the ground level also through this octagonal opening. The mausoleum is crowned by a dome pierced with trellis works and accompanying panels decorated with flower designs.

The smaller mosque, a later addition, stands to the west of the mausoleum. The bays are pierced through with five cusped arches and a minaret could be noticed at each corner.

According to the "*Tawarikh Namah*" of Ghulam Mustafa, the cost of construction of the mausoleum was Rs. 6,68,203-7 (Rupees Six Lakh, Sixty Eight Thousand, Two Hundred and Three & Seven Annas) in 1651-1661 A.D.

3. WATER MILL

Panchakki (Marathi: पंचकळी) also known as the water mill, takes its name from the mill which used to grind grain for the pilgrims. This monument located in Aurangabad, Maharashtra, displays the scientific thought process put in medieval Indian architecture. It was designed to generate energy via water brought down from a spring on a mountain. The building, attached to the dargah of **Baba Shah Musafir** a Sufi saint is located in a garden near the Mahmud Darvaza and consist of a mosque, a madrissa, a kacheri, a minister's house, a sarai and houses for zananas.

History

The board at the entrance of Panchakki

Most of the buildings in the dargah complex (including Panchakki) were erected by Turktaz Khan, a noble on the staff of Nizam-ul-Mulk Asaf Jah in about 1695 A. D. The oblong reservoir in front of the mosque and fountains were added 20 years later by Jamil Beg Khan. Dating back to the 17th century, this ingenious water mill was designed to use the energy generated by flowing water from a nearby spring to turn the large grinding stones of the flour mill. Shah Mosafar died in Hijri 1110. This water mill was used to grind grain for the pilgrims and disciples of saints as well as for the troops of the garrison.^[1]

Operating process

Panchakki, Baba Shah Mosafar Dargah^{1880s}

The water-mill is kept fed with sufficient water by an underground conduit, which commences from a well just above the junction of the Harsul river with a tributary stream eight kilometers away. After crossing the tributary stream near its confluence with Harsul, this water-pipe proceeds to the Panchakki

reservoir. The arrangement is such that the water is made to fall into the Panchakki cistern from quite a height in order to generate the necessary power to drive the mill. The cistern lies in front of the mosque whose bottom forms the roof of a spacious hall. The cool chambers of the hall are used in summers by pilgrims, and is about 164' X 31' ornamented with fountains. The excess of water is let in the Kham river.

A fine view of the Kham river can be had from the windows of this hall. There is also a cenotaph to the spiritual preceptor of Baba Musafir Shah and a tomb to his disciple Baba Shah Mahmood and a few other graves. A huge banyan tree on the southern margin of the reservoir provides shade and adds beauty to the whole scene. In the North-West corner, adjacent to the cistern, is the water mill driven entirely by water power. It is said that in the olden days, grain could be ground without physical effort. The country here exhibits one of the most picturesque landscapes about Aurangabad. The Kaula nala skirts the garden, and is first crossed by an old bridge with pointed arches and then by a second bridge which spans it lower down. The walls of Begampura are to the right and the city walls are to the left, while Shah Musafir's garden is between the latter and the river bank. The garden walls descend down to the bed of the nala; and the dargah and the accompanying buildings, with the cisterns and the fountains that are interspersed, blend picturesquely with the garden vegetation.

CONCLUSION OF STUDYTOUR REPORT

I sincerely thankful to the national senior college management they allow us to study tour.

Then , I thankful to our college principal Dr. S.B.Nahire who gave us permission to study tour and best wishes for succeeding study tour. I am also thankful to our geography department teachers they gave us to chance to study of different geographical and historical aspects. I also thankful who directly or indirectly help us to fulfill our study tour and report. Again thanks to all of you.

Industrial visit Report

Program Name: Industrial visit

Program Date: 20th March. 2023, Time: 2:00 p.m.

Venue: SW Mataform Pvt.Ltd. No.f-13, MIDC, Satpur, Nashik-422007(MS)

Faculty Members Present: Asst. Prof. Simin Shaikh
O.S. Mr. Majid Peerzada
Asst. Prof. Nida Kausar Shaikh
Asst. Prof. Harshada Kulkarni

No. Of Students Present: 36

Objectives of the visit:

1. To develop the understanding of the student with a realistic and practical perception of the industry its layout, procedures, processes, organization structure.
2. The objective of the Industrial Visit is to help students gain first-hand information regarding the functioning of the industry which presents the students with opportunities to plan, organize and engage in active learning experiences both inside and outside the classroom.

An industrial visit to SW Mataform Pvt.Ltd. was organized for the students of BBA Department, National Senior College on 20th March 2023 .Thirty six students of BBA Department and All faculty member visited to SW Mataform Pvt.Ltd. to interact with the resource person to understand the process of manufacturing Sheet Metal fabrication, assembling as well as distributing it. The visit started in afternoon at 02:00 pm to 04:00 pm. students visited and interacted with the resource person and owner of the company Mr. Bharat Gajria sir who has given the information about Industry and appointed supervisors to give all the information about manufacturing, assembling and distribution functions.

The visit was organized by BBA Department. The students was participated and asked various questions to understand the process in the visit and interacted very well.

MEMORANDUM OF UNDERSTANDING/ LINKAGE

This Memory and understanding (hereinafter called as the MOU)/ Linkage is entered into on this the 17th April 2023, by and between

National Senior College, Nashik, Sarda Circle Maulana Azad Road, National Campus, Nashik 420001, the First Party represented herein by its **Principal** (herein after referred as **First Party'**, the institution which expression, unless excluded your repugnant to the subject or context shall include its successors–in-office, administrators and assigns).

AND

Skylark Computer Institute, near Ayesha Masjid, Nagji Chowk, Dwarka, Nashik-422001, and represented herein by its Director, Mr. Zahir Shaikh (herein after referred to as **“Second Party”**, Company which expression, unless excluded by or repugnant to the subject or context shall include its successors – in-office, administrators and assigns).

(First Party and Second Party are hereinafter jointly referred to as ‘Parties’ and individually as ‘Party’) as

WHEREAS:

- A. First Party is a Higher Educational Institution named:
National Senior College, Nashik, Sarda Circle Maulana Azad Road, National Campus, Nashik 420001
- B. First Party & Second Party believe that collaboration and cooperation between themselves will promote more effective use of each of their resources, and provide each of them with enhanced opportunities.
- C. The Parties intend to cooperate and focus their efforts on cooperation within the area of Skill-Based Training, Education, and Research.
- D. Both Parties, being legal entities in themselves desire to sign this MOU/Linkage for advancing their mutual interests.
- E. **Skylark Computer Institute, near Ayesha Masjid, Nagji Chowk, Dwarka, Nashik-422001, and the Second Party** is an authorized computer training institute engaged in providing high-quality education, guidance, training & development for college students and working professionals.
- F. **Skylark Computer Institute, Nashik-422001 the Second Party** is promoted by **Mr. Zahir Shaikh - Nashik, Tal: Nashik, Dist: Nashik Maharashtra (India).**

NOW, THEREFORE, IN CONSIDERATION OF THE MUTUAL PROMISES SET FORTH IN THIS MOU, THE PARTIES HERETO AGREE AS FOLLOWS:

CLAUSE 1 COOPERATION

1. Both Parties are united by common interests and objectives, and they shall establish channels of communication and co-operation that will promote and advance their respective operations within the **Institution** and its related wings. The Parties shall keep each other informed of potential opportunities and shall share all information that may be relevant to secure additional opportunities for one another.
2. First Party and Second Party cooperation will facilitate effective utilization of the intellectual capabilities of the faculty of First Party providing significant inputs to them in developing suitable teaching/training systems, keeping in mind the needs of the industry, the Second Party.
3. The general terms of co-operation shall be governed by this MOU/Linkage. The Parties shall cooperate with each other and shall, as promptly as is reasonably practical, enter into all relevant agreements, deeds, and documents (the 'Definitive Documents') as may be required to give effect to the actions contemplated in terms of this MOU/Linkage. The term of Definitive Documents shall be mutually decided between the Parties. Along with the Definitive Documents, this MOU shall represent the entire understanding as to the subject matter hereof and shall supersede any prior understanding between the Parties on the subject matter hereof.

CLAUSE 2 SCOPE OF THE MOU/Linkage

1. The budding graduates from the institutions could play a key role in the technological up-gradation, innovation, and competitiveness of an industry. Both parties believe that close co-operation between the two would be of major benefit to the student community to enhance their skills and knowledge.
2. **Industrial Training & Visits:** Industry and Institution interaction will give an insight into the latest developments/requirements of the industries; the Second Party to permit the Faculty and Students of the First Party to visit its group companies and also involve in Industrial Training Programs for the First Party. The industrial training and exposure provided to students and faculty through this association will build confidence and prepare the students to have a smooth transition from academic to working careers. The Second Party will provide its Labs / Workshops / Industrial Sites for the hands-on training of the learners enrolled with the First Party.

4. **Research and Development:** Both Parties have agreed to carry out joint research activities in the fields of Desktop-based work.
5. **Guest Lectures:** Second Party to extend the necessary support to deliver guest lectures to the students of the First Party on the technology trends and in-house requirements.
5. **Placement of Trained Students:** Second Party will actively engage to help the delivery of the training and placement of students of the First Party into internships/jobs; and will facilitate placements for at least 40% of the students. The Second Party will itself absorb at least 10-20 percent of the trained students.
6. Both Parties to obtain all internal approvals, consents, permissions, and licenses of whatsoever nature required for offering the Programmes on the terms specified herein
7. There is no financial commitment on the part of **National Senior College, Nashik, Sarda Circle Maulana Azad Road, National Campus, Nashik 420001**, and the First Party to take up any program mentioned in the MOU/Linkage. If there is any financial consideration, it will be dealt with separately.

CLAUSE 3

INTELLECTUAL PROPERTY

1. Nothing contained in this MOU/Linkage shall, by express grant, implication, estoppel, or otherwise, create in either Party any right, title, interest, or license in or to the intellectual property (including but not limited to know-how, inventions, patents, copyrights, and designs) of the other Party.

CLAUSE 4

VALIDITY

1. This Agreement will be valid until it is expressly terminated by either Party on mutually agreed terms, during which **Skylark Computer Institute, near Ayesha Masjid, Nagji Chowk, Dwarka, Nashik-422001**, the Second Party, as the case may be, will take effective steps for implementation of this MOU/Linkage. Any act on the part of **Training Partner** or **Name of Industry**, the Second Party after the termination of this Agreement by way of communication, correspondence, etc., shall not be construed as an extension of this MOU/Linkage.
2. Both Parties may terminate this MOU/Linkage upon 30 calendar days' notice in writing. In the event of termination, both parties have to discharge their obligations

CLAUSE 5

RELATIONSHIP BETWEEN THE PARTIES

1. It is expressly agreed that **First Party** and **Second Party** are acting under this MOU/Linkage as independent contractors, and the relationship established under this MOU/Linkage shall not be construed as a partnership. Neither Party is authorized to use the other Party's name in any way, to make any representations, or create any obligation or liability, expressed or implied, on behalf of the other Party, without the prior written consent of the other Party. Neither Party shall have, nor represent itself as having, any authority under the terms of this MOU/Linkage to make agreements of any kind in the name of or binding upon the other Party, to pledge the other Party's credit, or to extend credit on behalf of the other Party.

First Party and Second Party

Any divergence or difference derived from the interpretation or application of the MOU/Linkage shall be resolved by arbitration between the parties as per the Arbitration Act, 1996. The place of the arbitration shall be at the District Headquarters of the First Party. This undertaking is to be construed in accordance with Indian Law with exclusive jurisdiction in the Courts of Nashik.
