Department of Computer Science

BRIDGE COURSE REPORT (2020-21)

National Senior College Department of computer science had organizes a Bridge coaching for FYBSc. (CS) students. The program was scheduled for 10 days. The objective of program was to give the guidelines to students about the course and to bridge the gap between students, computer knowledge and mathematics arranged by Asst. Prof. Nida Ansari and asst. prof. Farheen Shaikh respectively

The session started with welcome speech and introduction of speaker given by subject teacher. Then program is continued for 10 days by respective subject Incharges.

The program resulted in increased knowledge and interest towards subject by students.

Report on "IoT (Internet of Thing) Webinar"

The spread of COVID-19 has affected almost all spheres of human life – physical, emotional, and economic. In India, we are all navigating through the current lockdown. Like every other crisis, we will ride this tide, adapt, and come out stronger. The pandemic has significantly disrupted the higher education sector as well, which is a critical determinant of a country's economic future. Hence Computer Science and Application Department had organised a webinar on Internet of Things on 08.12.2020 from 11 am to 12pm. The resource person for this event was Mr. Aman Singh working in Tech2secure company. 55 students attended the webinar. The main aim of the webinar was to educate students about fundamental units of IOT project, sensor, Microcontroller and connectivity of IOT. He stressed on the point that everything is becoming automated, accelerated and augmented and in the near future objects will communicate more often than now.

Lastly he explained about additional IOT device capabilities like the advantages of using robots and drones in this vulnerable situation. The session was very much informative. The discussed areas were of great benefit for the students as the topic was very much relevant with the current scenario and working domain. Students were enlightened with the most widely used advance technologies in this domain. The webinar ended with Questionnaire session. Feedback for the session was also collected.

Report PCB Design Webinar"

Computer Science Department had organised a **webinar on PCB Design** on 9.12.2020 from 3 pm to 5pm. The resource person for the Webinar was Miss. S. S. Pagare working as a Asst. Prof. In PVG's.S. S.Dhamankar Commerce, Science & Arts College, Nashik . 30 Students attended the webinar. The main aim of the webinar was to educate students about PCB design, the PCB use in every electronic circuits. The session was very much informative. The discussed areas were of great benefit for the students as the topic was very much relevant with the current scenario and working domain. Students were enlightened with the most widely used advance technologies in this domain. The webinar ended with Questionnaire session.

Report on "Adobe Flex Webinar"

The spread of COVID-19 has affected almost all spheres of human life – physical, emotional, and economic. In India, we are all navigating through the current lockdown. Like every other crisis, we will ride this tide, adapt, and come out stronger. The pandemic has significantly disrupted the higher education sector as well, which is a critical determinant of a country's economic future. Hence Computer Science and Application Department had organised a webinar on Adobe Flex from 15/03/2021 to 31/03/2021 at 11 am to 12pm. Link for registration was <https://forms.gle/NJiE1uz5DqhCcJ7R9>. The resource person for this event was Mr. Vishal Chavhan. 56 Students attend the webinar. The main aim of the webinar was to educate students about how Flex is a powerful, open source application framework that allow building mobile applications for iOS, Android, and BlackBerry Tablet OS devices, as well as traditional applications for browsers and desktops using the same programming model, tool, and codebasing. How we can build Flex applications using Adobe Flash Builder which is an enterprise-class Eclipse based IDE. This Webinar provided students an in-depth understanding on Flex concepts needed to get a web and mobile application up and running. He focusses on how to make videos and animations interactive, also with mouse and keyboard. Also helpful for students to have good knowledge on scripting languages such as Java, Java Script. He stressed on the point that everything is becoming automated, accelerated and augmented and in the near future objects will communicate more often than now.

The session was very much informative. The discussed areas were of great benefit for the students as the topic was very much relevant with the current scenario and working domain. Students were enlightened with the most widely used advance technologies in this domain. The webinar ended with Questionnaire session .Feedback for the session was also collected.

A Report on "National Mathematics Day" commemorating Sri. Srinivasa Ramanujan's Birthday"

The Department of Computer Sciences conducted a one day online event on 22nd December, 2020 at 11:00am-3:00pm on the occasion of "National Mathematics Day- commemorating Sri. Srinivasa Ramanujan's 133rd Birthday".

Srinivasa Ramanujan Iyengar
22 December 1878 - 26 April 1920

The main objective of the event was to celebrate Sir Ramanujan's birthday and make students realize the practical and daily life applications of Mathematics in computer science & engineering field. The event started by lightening the lamp and garlanding Srinivasa Ramanujan's photo in the Department of Computer Science.

The students of FYBSC (CS) & enthusiastically presented and participated in the events. The program started with a video presentation by assistant Prof. Irfan shaikh through Zoom on the topic "Srinivasa Ramanujan Life History".

The students gave presentations on various topics related to mathematics day .The below are the list of students who did presentations :

1] Fiza Shaikh SYBSC(CS)

The presentation was about importance of Mathematics around the world. She also introduced about the great ancient mathematicians Brahmagupta and Bhaskara.

2] Insha Kazi SYBSC(CS)

This presentation is about biography of Srinivasa Ramanujan and his works in number theory. Also they explained about Aryabhata, Euler contributions in mathematics.

3] Taskin Peerzade SYBSC(CS)

The presentation comprised of applications of mathematics in our daily life and also in social media

4] Sadiya Shaikh SYBSC(CS)

The presentation was about the biography of Srinivasa Ramanujan and his contributions in mathematics towards research.

5] Kail' FYBSC(CS)

The presentation was about the importance of national mathematics day and they quoted some mathematicians such as Mahaveera, Ganesh prasad and Prashanta Chandra

6] Ubed Pathan SYBSC(CS)

The presentation is about maths day and its importance in real life .Also they stated about contributions in mathematics by Srinivasa Ramanujan, Aryabhata ,Bhaskara and also included the uses of mathematics in daily life.

Finally the event concluded with talk by Assistant Prof. Nazmin Khan, Head of the Department(CS) & Assistant Prof.Farheen Shaikh for advancement motivated and inspiring the students about the importance of mathematics in engineering , especially in emerging areas like Machine learning and Artificial intelligence.
